Dear Green Cities Fund staff,

Congratulations on your recently approved Office of Foreign Assets Control (OFAC) *Planting Seeds* project, which promotes sustainable agriculture, local food production, and nutritional outreach to schools in Cuba.

This unique project underscores your organization's accomplishments and dedication to humanitarian work in Cuba.

I commend Green Cities Fund staff on your leadership and commitment to ending the ineffective Cuba embargo and I look forward to working closely together in the future.

Warm regards,

Barbara Lee
